The Committee on Private Land Claims recommended the passage of a bill for the relief of R. H. Jackson.

Messrs. Burnett and Guinn made the following minority report:

The Committee on Retrenchment and Reform, having had under consideration the government of the lunatic asylum, have determined to make no alteration or reduction of the officers and their salary. The undersigned minority dissent from the majority of the committee and beg leave to make the following report:

We are of the opinion that the salary of the superintendent remain unchanged and that the board of managers be required to deduct from his salary a reasonable board for each and every one of his family and so with every officer of the asylum. There is an invidious distinction between officers who have large families and those who have small, and believe this distinction should not exist. We think the salaries are fully sufficient to admit of a reduction for board. The salaries of the other officers of the Government are not any more nor are their families supported at the expense of the State. We also disagree with a majority of the committee relative to the raising of the salary of the Governor's private secretary, being fully convinced that these are no times to raise the salaries of officers.
